## The School Concert Pleases Big Audience

On Friday last the students of Champion Consolidated School staged an entertainment of outstanding merit. The costumes were many and varied and all suited to the roles taken by the performers who were without exception well selected by those responsible for training them for this special program. E. McLean, chairman of the Board presided and in his opening remarks referred to the packed hall, 500 being present, stating that Champion audiences usually did their part.

Mrs. J. Walker and Miss Marjorie McDougall played the accompaniments. The opening number was "Merry, Merry Christmas" by choruses of grades 7 and 8. 2 Brownies, "Heigho, Heigho, when we get tired we stand on our heads just so" and set showed above the sheet stretched across the stage.

3. A very pretty scene with Santa, Bunny, Snow Queen and twelve girls as Snowflakes by grades 1 to 6.

4. Boys of grades 4, 5 and 6 in Chorus in acrobatic stunts.

5. Christmas Carol by the School Chorus.

6. Six by the High School boys and girls, "Wireless an' Scholike", featuring songs and readings, etc.

7. "The Pied Piper of Hamelin" grades 7 and 8.

8. Musical burlesque "Ship wrecked on a Tropical Island" with special hand painted scenery. The music, singing and dancing acts left little to be desired.

The arrival of the real Santa Claus was distributed, the big 4 unit and easily from a beautifully decorated tree concludes the program.

## NOTICE

I hereby withdraw all statement and insinuations I have made against the character and professional reputation or ability of Dr. H. J. Hallows. I have investigated the rumor the Doctor Hallows was prohibited from working or carrying out his professional duties in Champion Hospital and found that it is without foundation and untrue. I have with tender my sincere apologies to Dr. Hallows for any inconvenience or annoyance I may have caused him.  
RAY W. JOHANSEN.  
Dated: Dec. 26, 1935.

## One Big Success

The school concert at Long Centre on Dec. 18th was about the first to be put on in the Champion district, and it was a real leader. A crowded house was enthusiastic in its reception of the programme, and the writer is positive it was the best small school programme he has ever seen or heard. In 28 years in the west. The teachers, Miss E. McLean, the pupils and all and Mrs. M. Sisson, the piano solo deserve the heartiest congratulations. A large crowd enjoyed the drive and refreshments after the programme, and altogether it was a real red letter night for Long Centre school.

One of the Board.

## Notice

The Board of Trustees of the Champion Consolidated School District No. 40, wish to take this opportunity to thank the teachers, students, and all who assisted towards making the school Christmas concert, held on the evening of December 26th, 1935, such a success.

Published by the Order of the Board.

## The High School Christmas Tests

The first number after each name indicates the number of units written and the second the number of units in which the students obtained at least 50 per cent.

### Grade IX

Walter Anderson 7-2; Anna Balsir 7-7; Loreta Clever 7-3; Ruth Dupue 7-6; Eric Diemert 7-2; Robert Gardner 6-1; Anna Goodnight 7-4; Ruth Jopling 7-5; Eric McFatt 7-7; Ralph Naylor 7-1.

### Grade X

James Anderson 7-5; Betty Caldwell 7-4; Maxine Duto 7-6; Douglas Dow 8-3; Anna Ellis 7-8; Jerry Fath 8-5; Marie Fath 8-3; Evelyn Krammer 8-3; Ewey McDougall 8-3; Hugh Miller 7-7; Mabel Vange 7-6; Leonard Vaisey 7-3; Harold Bach 4-2; Bernard Daigle 5-2.

## Municipal Council Notes District of Harmony, 128

The regular monthly meeting of the council of the M. D. of Harmony was held in the Municipal office on Friday, December 6th. All members of the council were present, and Reeve Ellis presided.

The minutes of the previous meeting were read, and on motion of Council or Long same were adopted.

The secretary read communication from the Department of Municipal Affairs re Auditor. No discussion. A lengthy discussion arose in respect to the elevator agents issuing Cash Tickets to farmers whose grain is under seizure by the Municipality. Also, the Elevator Companies have been making advances, and collected from what belonging to the Municipal District.

Councillor Hopkins moved that the Secretary write to the Calgary Officers of the various Grain Companies and advise that in the event of the Municipality being unable to collect these Seed Loans, we shall hold them responsible for same, as all elevators were notified by registered mail, of these Seed Grain Loans (carried unanimously).

Councillor Mathak moved that the amount of Grainin Motors for Grass-opper labor be tabled for further investigation. (Carried).

The Secretary was instructed to make arrangements for the hiring of the Community Hall for the general meeting, the third Saturday in February 1936.

Councillor Ellis moved that John Cain be appointed as returning officer.

The following were appointed as Deputy Returning Officers and Poll Clerks in their respective divisions: No. 1—William Jensen, Dept. Returning Officer; J. L. Bowman, Poll Clerk; Place 3—J. L. Bowman's residence.

No. 3—F. S. Richter, Dept. Returning Officer; A. Fath, Poll Clerk; Place—Municipal Office.

No. 4—P. Lundgren, Dept. Returning Officer; Ed. Carlson, Poll Clerk; Place 5—B. Re's residence.  
As there was no further business to be discussed, Councilor Long moved the adjournment at 6.30 o'clock.

## The Canadian Wheat Problem

In a recent article a suggestion was made that the time is ripe to make efforts to induce the consumer in Great Britain, and particularly in England, to demand a better quality of bread, in anticipation that the creation of an appetite for a quality loaf would naturally result in greater sales of Western Canadian hard spring wheat in Canada's best, though restricting market.

The suggestion was based on evidence that this market is narrowing due to a growing taste for more expensive and exotic substitutes for the staff of life throughout Great Britain, generally, fortified in England particularly, by an appetite for bread of a lower protein content than is contained in flour manufactured from the hard spring wheat for which the Western prairies is the natural habitat.

Since that time further and more potent evidence has come to hand, which not only confirm the statements about a disquieting trend in the Old Land which, unless stemmed, is bound to adversely affect the interests and welfare of the Western Canadian prairies but, if anything, tends to show that the situation is even more alarming than it might have appeared at first blush. In view of the great importance of this market, the life blood in fact, of Western Canada, no apology is needed for again reverting to the subject in such short time.

The confirmation of this highly undesirable (from the viewpoint of Western Canadian citizens, rural and urban alike) condition existing in Great Britain and other European consumer countries, comes from Sir Francis Flood, British high commissioner to Canada, who, about the middle of December, sounded a warning note to the general effect that Canada is in serious danger of losing the British and European markets. He gave three principal reasons for his dire view, as follows:

1. The spread in price between Canada and Argentine wheat.

2. The growing demand in Great Britain for fancy breads which are composed of 90 per cent. Argentine soft wheat and 10 per cent. Canadian hard wheat.

3. The falling population of the civilized countries of the world.

In his comments before the Commerce Club of the University of Toronto, Sir Francis Flood drew a dark picture of the outlook, in which he pointed out that in recent years the proportion of Canadian wheat taken by Great Britain has been dwindling steadily while the price spread between Argentine and Canadian wheat has been widening, to the detriment of the latter in a country where the bawling interest in industrial and trade problems and commercial interests of buying in the cheapest markets.

"I am sorry to say this, gentlemen," Sir Francis is quoted as saying, "but the outlook for Canada as an agrarian nation is both bleak and difficult, and until economic scientists halting interest in the trade problems of the future for Canada wheat is a very serious problem."

Practically on the same date news despatches announced at least a temporary removal of one of these barriers to Canadian wheat in the British market, in reports of crop failures in the Argentine, coupled with the announcement that the Argentine government had fixed the price of its wheat at 90 cents a bushel, placing it on a parity with the better quality Canadian wheat.

It is not, however, a sudden demand for Canadian wheat and an immediate advance in price.

While this, of course, is satisfactory, while this situation lasts, it should be pointed out that it may only be a temporary situation and should not be permitted to divert the mind from the more serious and long range aspects of the problem, namely the growing trend in our best market to use substitutes for bread, and the demand for fancy soft wheat bread.

Indeed, with the prices of Argentine soft wheat and Canadian hard wheat more closely in balance it might well be argued that there is no better time than the present to demonstrate to the British consumer that it is possible to produce the most tasty of fancy breads from Canadian wheat and to cultivate a demand for high quality along with devices for tickling the palate.

In considering this phase of the problem it should also be borne in mind that a short crop in the Argentine now may be followed 12 months later by a bumper yield in that country and that the Argentine government's action in pegging the price of its wheat at a fairly high level may be renounced at any time, even before another crop is ready for the market.

A further factor in the situation is likewise substantial, perhaps heavy wheat crops being reaped in Western Canada in the next few years, in which event this country will require expanding, instead of the recent contracting, demands for her wheat in the consumer countries. Authorities declare that the drought of the past few years is definitely broken, and as the grasshopper menace receding and a promise of a rust resistant wheat in commercial quantities within the next year or two, there is reasonable belief for anticipations that the wheat crop will have more wheat to export than has been available in the past few years.

The only alternatives to creating consumer demand are to cultivate new markets or to devote attention to production of other commodities. Perhaps the solution of the problem is to be found in a combination of all.

### Scarcity Of Fur Animals

#### Saskatchewan Reports Few Trapped

Coured With Other Wares

Fur-bearing animals, such as the fox, mink, otter, coyote, weasel and skunk are somewhat scarce in Saskatchewan this winter, according to former years, officials of the game branch, provincial government report.

A few mink and otter have been trapped, and in the southern part of the province a drive has been on against skunks and weasels, but the numbers killed are not large.

Coyotes are fairly plentiful in central and western sections of the province but no great numbers have been killed.

Rabbit rabbits, a past year in several sections, resulting in organized drives and killing of as many as 1,000 a day, are scarce in the west. There is an exceptionally early demand for park rabbits this year, with prices at 16 and 17 cents. Last year the prime rabbits brought about 10 cents.

### Relief Costs

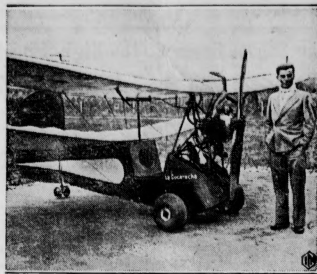

#### Expense Of Supporting Unemployed Varies In Each Province

Wide variations in November relief costs in different provinces were shown in figures released by the federal labor department. It costs \$7.62 to support an unemployed person in Ontario and \$15.51 in Prince Edward Island with \$6.52 the average for all provinces.

Variations were due to local conditions and different standards of relief maintained. The figures did not include administration costs.

The following were the provincial averages: Prince Edward Island, \$14.61; Nova Scotia, \$4.15; New Brunswick, \$3.15; Quebec, \$4.44; Ontario, \$7.62; Manitoba, \$7.19; Saskatchewan, \$6.19; Alberta, \$7.33, and British Columbia, \$7.30.

### SKY FLEA COSTS LESS THAN CAR

"La Cuencaira" is the appropriate name of this "sky flea," a plane with a wing spread of 20 feet, weighing only 316 pounds. It has a cruising speed of 80 miles an hour, and was built by Edwin Nirmaler of Ciudad for Powell Crossley, Jr., radio magnate, at a cost of \$100 plus the cost of the motor and labour.

### Problem For Hungary

#### How To Bring Back Echo Which Has Been Lost

All the world loves an echo, and Hungary is mourning a lost love. The echo was last heard at Lake Balaton, where tourists used to put it through its paces and listen with delight when it repeated, with additions, their lightest utterance. This was an industrial echo. Nothing seemed to exhaust it while the supply of tourists lasted, and it would go on cheerfully all day long without a pause.

Then, as if weary of wall-dwelling, it dwindled and died. The inhabitants of the region, disturbed by the loss of revenue, invited professors and scientists to say where it had gone, and what the possibilities were of bringing it back.

For a long time more elusive than an echo, the lost echo is hard to recover, but the scientists were not to be defeated. The professors suggested that the trees growing in the neighborhood had first blanketed the sound and finally, as they grew up, had stifled it. But a delicate problem is now set to those who would call the echo back. The trees might be cut down and the echo yet be shy. Then the lake would lose both its echo and its trees.

### Seeking Information

#### Business And Professional Men Studying Social Credit

A number of Halifax business and professional men have organized a group for a study of the principles of Social Credit, according to Edward S. Dixon, manager of the Halifax tourist bureau.

He denied a report that a new political party for Nova Scotia was in the making. "That's nonsense," he asserted. "We are not forming a party. We merely want to see what is in the Social Credit plan."

One of the group, number in about a dozen, has been formed as the outgrowth of a study club which had taken up such subjects as employment and health insurance. "We just want to find out what there is to the scheme," he emphasized.

### Interested In Water-Lilies

#### American Botanist Travelled 4,000 Miles To See Rare Specimens

To see a water-lily pond kept by a policeman in his garden in London an American professor of botany has travelled 4,000 miles. The two men, Dr. Henry S. Conrad, professor of Botany at Cornell University, New York, and Constable Robert Trickett, have corresponded for five years on the subject of water-lilies—their life interest. Trickett who is a Fellow of the Royal Horticultural Society is well known at the Royal Botanic Gardens, in Kew, where he has helped to identify rare specimens. He has a comprehensive collection of botanical works, but his proudest possession is an autographed book on water-lilies.

### Gifts For Fire Victims

A woolen bathing suit was among the many contributions offered for victims of the Royal hotel fire in Hamilton, Ont. An "Alice in Wonderland" hair band and a picture of a 1906 automobile party were other gifts to those rendered homeless by the disastrous blaze that claimed one life.

Patented Diner: "I'll have a portion of chicken; it must be a cocker, and this year's bird, and nothing but the wing will do."

Waiter: "Very good, sir. Right or left leg, sir?"

### Great Criminal Pathologist

#### Professor Sydney Smith One Of Best

Although not well known in England, Professor Sydney Smith, who is Regius Professor of Forensic Medicine at Edinburgh University, is in Scottish medical circles regarded as one of the greatest criminal pathologists who ever lived, says a report in the medical press. He was a remarkable reputation as a criminal expert in Egypt, where before taking up his present appointment in 1928, he was principal medico-legal expert to the Egyptian Government and Professor of Forensic Medicine in the University of Egypt. He came to Egypt as a veritable Sherlock Holmes there. His greatest claim to fame was for the part he played in bringing to light the murder of Sir Eric Stack, the late Sirard of Egypt. His dramatic reconstruction of the murder was practically the deciding factor in the trial of the murderer, which he held the court spellbound with his evidence. At one stage he had the door of the murderers' house set on fire by the magistrates' bench, while he demonstrated how two at the end of the pistols used had been secreted in a panel of the door.

### A Strange Case

#### Woman In Russia Foes As Man And "Marries" Other Women

A woman accused of posing as a man and "marrying" nine other women in a period of four years only to rob and abandon them was arrested at Kadievka, in the Don Basin, says a report from Moscow.

She is Vera Zavarzina, and her system, authorities said, was to get her "bride" drunk on vodka on the wedding day and make off with her possessions while she remained in a stupor.

Everything went all right until the day of the nine remained concealed under the influence of the liquor and called the police. Vera was arrested before she could complete her getaway.

Police said the woman, between courships and marriages, wore feminine clothing.

### Julia's Air Beacon Chain

Pilots flying across India will rarely be out of sight of an aerodrome on the 2700-mile route from Karachi to Beagun with a great chain of beacon lights which have been set up along the route. Each of them will be visible from 30 to 100 miles.

At no time will an airplane have more than two hours' flying without passing a guiding light.

"Metal" bags are being tried out for packaging marshmallows as well as potato chips, as a means of preserving freshness.

### Proves Earth Is Round

#### Picture Taken From Stratoplane Clearly Shows Curved Line

New visual proof that the world is round, shown in a stratoplane picture snapped at almost 14 miles above the earth's surface, was displayed in Washington by the National Geographic Society.

Captain Albert Stevens of the United States army air corps, co-sponsor of the stratoplane flight of November 11, showed for the first time from still and motion pictures taken from the balloon's record-making ceiling. Society officials displayed these pictures and other scientific data obtained outright in importance the setting of the altitude record.

The earth curvature picture shows a section of the horizon 200 miles long, more than 2 1/2 degrees of a circle and about 1/10th of the total circumference of the earth. Projected on a screen, it reveals clearly the curved line of the earth's surface.

To take this picture Captain Stevens' special camera saw a distance of 100 miles past the horizon, the haze of the distant horizon by the screening of all light except the penetrating infra-red rays. Taken approximately over Parnassus, S.D., it recorded more than 40,000 square miles of western South Dakota territory.

### SELECTED RECIPES

#### WHOLE WHEAT BREAD

##### Simplified Straight Dough Method

- For Making Four Loaves
- 8 cups Whole Wheat flour
- 2 cups soft white flour
- 1 1/2 tablespoons salt
- 4 tablespoons sugar
- 4 tablespoons butter (or lard)
- 1 Royal Yeast Cake
- 4 cups warm water, or milk or potato water

##### Method

In the evening break up and soak one Royal Yeast Cake for 30 minutes in 4 cups of warm water, or milk, to which has been added 4 tablespoons sugar. Mix 1 1/2 tablespoons salt with white flour, add and add to whole wheat flour. Mix 4 tablespoons butter or lard, and add to yeast liquid. Mix flour and liquid. Turn out on board and knead well, adding flour if dough sticks to board. Place dough in warm, greased bowl, cover well and allow to rise overnight, about 10 hours.

### Woman Pirate

#### Japanese Police Capture Girl Who Terrorized China Coast

Another chapter in the lengthy saga of woman pirates on the China coast was closed when Japanese police put a 27-year-old girl named Sue Nakamura on board a vessel due to sail from Japan, where she will go to prison for her misdeeds.

A primary school teacher in Hokkaido, Japan, her native province, is later sent to Fukuoka and became the mistress of a notorious pirate chieftain, Chen Lai-Pin. She took part in hundreds of raids on junks and small towns along the coast and was known by the whole pirate fraternity, officers said. Police said she had received a \$50,000, capital of Fukuoka province, she was brought to Shanghai by Japanese authorities.

### Clever Blind Girl

Although blind for the past 10 years, ever since she was 12, Agnes Horn, Edmonton, has developed her four remaining senses to a point where she can sew, knit, weave, play the piano, operate a switchboard and qualify as a first-class stenographer.

Motorists are running into deer on Saskatchewan highways. Proper thing is to pass the buck.

A well bred man concedes how much he likes himself and how little he thinks of others.

## PRINTING PRESSES FOR SALE

One Pony Optimum Cylinder Press, one 10 x 12 and one 12 x 18 Chandler & Price Grand Press. Also 26-inch Gullotine Paper Cutter and one Linotype machine. All in excellent condition. Apply Box 336, Regina, Sask.

### Luxurious Ocean Travel

#### Quebec White Star Liner "Queen Mary" Provides Wonderful Accommodation For Tourists

Never before in the history of North Atlantic travel will such lavish provision have been made for tourist class passengers as in the new Canadian White Star Liner "Queen Mary".

Tourist facilities in the great liner will include stateroom accommodation extending over five decks. Eighty per cent. of the rooms will have adjoining private toilet; every stateroom will be fitted with mahogany bedsteads and supplied with hot and cold water. It will also have its own system of ventilation under the passenger's individual control.

Tourist public rooms will include an air conditioned dining saloon, an eighty seat long and extending the full width of the ship, a smoking room, cocktail bar, a library for 1,500 books, children's playroom containing a model railway, two lounges, one to be used on occasion as a talking picture cinema and ballroom; and a writing room.

The large swimming pool is being fitted out in blue and silver and adjoins an exceptionally complete gymnasium.

Passengers in Third Class will also find luxury in their accommodation. Every stateroom will have fitted dressing table, overhead lights, hot and cold water, and ventilation controlled by the passenger. Public rooms will be tremendously attractive, devoid of anything which has previously been provided for Third Class passengers. They include two lounges, two situated underneath the bridge and providing magnificent views looking forward out to sea; a smoking room and children's playroom.

### Rivers No Obstacle

#### Army Ants In Malaya Have System Of Crossing

That many ants in Malaya operate with military precision and march in lines that seem interminable has been reported by Carrett, Wells, Rivers are no obstacles to them, he says. The main body of the army carries the bulk of the river while scouts reconnoitre and choose a bend across the stream sweeps diagonally across the current. The ants then draw the main body across the line of a coconut, which rolls over into the water. As the current carries the living ball across, it keeps rolling over and over, so that each ant receives only a momentary ducking. The instant the ball touches the other side it is crushed and the ants scramble ashore, reform their ranks and continue their march.

### Declared Perfect Test

Those who serve steadily through the city's streets should watch their sherry. One sentence, says Dr. Hulseley R. Green, chief surgeon of the Department of Public Safety, Philadelphia, will save citizens stopped for driving while intoxicated. If you can say "Buse and Sallie Stumpson sat in the soup" you're sober, the doctor asserts.

### Anti-Semism Spreading

Anti-Semitism is spreading over the North American continent with Quebec province taking a lead in attempting to stop the red of Canada against Jews. Rabbi Barnett R. Bricker, of Cleveland, declared at the Canadian Jewish congress in Toronto.

Word Derivation

Humor: A Fluid  
Of Medieval Physiology

Humor is Latin for "moisture," "fluid," and our English word at first retained the same meaning. In old physiology the humors were the four fluids (blood, phlegm, choler, and melancholy) conceived as entering into the constitution of the body and determined by their relative proportions the individual's health and temperament. Something of this meaning survives in medical use, but in popular use humor has come to mean "disposition" or "state of mind," as in "good humor," "ill humor," and the like. More especially, humor has come to signify one particular side of one's temperament—the mental faculty of discovering, expressing, or appreciating the ludicrous—and the word has broadened to cover also that quality in a thing that appeals to the sense of humor. There is an interesting comparison to be made with the word complexion.

Mrs. Bastin received a large plum pudding and Christmas cake sent by her mother in England, who is 87 years of age. The film of the Army and Navy, over 40,000 in England made the

LIBERTY  
MAGAZINE'S  
CANADIAN  
HALL OF FAME  
No. 17

Having shot down more enemy aircraft and experienced more aerial combat than any other pilot of any nationality, living or dead, Wing Commander Raymond Collishaw is Canada's forgotten hero.

May soon have a baton and become the first Canadian made Air Marshal in the R. A. F.

So modest that when he visits Canada he now travels in disguise and only a fraction of his courageous exploits are known. He is the true descendant of British wings and still flies in the British army in the King's uniform.

Went to sea as a boy and at eighteen was close to the South Pole, navigator of Scott's ill-fated Antarctic expedition. When war broke out he forgot the sea and took to the air where he became the greatest combat pilot in the British army. He was never scratched although shot three times. His guns destroyed twenty-nine craft in two months and 1918 his all-Canadian 20th Squadron shot down enemy craft.

The hold at the 1st. Pers. 21st. "And now" let the air be sent against the Arabs in the night. It was then that he was shot. It was then that he was shot. It was then that he was shot.

It was then that he was shot. It was then that he was shot. It was then that he was shot.

Local & General

RD Farries and family spent Christmas with his brother-in-law at Winnipeg.

Miss Cameron, Miss Schultz, and Miss Robinson spent the holidays in Calgary.

F. G. Beaumont, Barrister of Carmarthen will be at the Chronicle office every Tuesday.

Mr. Glen Gozdlight left Friday evening by bus for Portland, Oregon where he spent Christmas with his sister Mrs. B. D. Welch.

The rug that is being raffled may be seen at McIntyre & Co's, the proceeds of which will go towards an X-ray machine for the local hospital; tickets 25c.

Dr. Dimock of Carmarthen received news of the death of his father in New Denver, B. C. December 10th. He had suffered from a stroke. Dr. Dimock is now back home after attending the funeral.

For Sale

Alfalfa hay and seed corn suitable for this country. Apply manager Savoy Hotel.

Famous Old Dog Goes

West On Christmas Day

Rover, the old st dog in Champion, and owned by G. M. Campbell, quietly slipped out of the picture on Christmas Day. He was 16 years old and had lived several years over the average dog's allotted span.

I called him Rover and in total sum he was all that his name implies. For he was just a tramp with a high-way stamp.

That culture couldn't disguise. And his friends, I've found in the streets should be they arches or dogs or men.

Yes he stuck to me, with a fiendish glow. That was truly beyond my ken.

I talked to him when I was lonesome like and I was sure that he understood.

When he looked at me so attentively and gently licked my hands.

Then he'd rub his nose on my tailored clothes. But I never said ought there at.

For the good Lord knows I could buy more clothes. But never a friend like that.

Save The Editor

Here is at least one minister who appreciates the editor. At a recent editorial convention a Kansas minister is reported to have offered the following list:

"To save an editor from starvation take his paper and pay for it promptly."

"To save him from bankruptcy, advertise in his paper liberally."

"To save him from despair, send him every item of news you can get hold of."

"To save him from profanity, write your correspondence plainly on and side of the sheet and send it in as early as possible."

"To save him from mistakes, bury him. Dead people are the only ones who never make mistakes."—Wisconsin Press.

"The FIRESIDE PHILOSOPHER"

By ALFRED BIGGS

Truth needs no alibi.

Success cannot be measured in money.

Go against nature and it will get you.

Think straight and you'll go straight.

Common honesty is uncommon in politics.

Watch the man who talks of his honesty.

A silent fool often gets credit for wisdom.

Better to lose your shirt than your self-respect.

EXPRESS Re-Designed for Cruises

By the installation of a permanent tiled swimming pool, increased deck space, and a Lido Cafe, the Empress of Australia, famous former world cruise liner of the Canadian Pacific, is being fitted for her three months West Indies cruise season in 1936.

The whole after-end of the 21,000 ton, three-funnelled liner is now being remodelled in England, and the structural changes being carried out will result in the addition of many square feet of deck space on "A" deck, an enlarged shelter promenade on "B" deck, and a spacious Cafe facing a tiled open-air pool, which will be the central feature of the new sports deck.

The tiled swimming pool will have an area of 750 square feet. It will be 25 feet long and 30 feet wide. Gay umbrellas and comfortable lounges will be dotted about the deck for sunbathers, and provision is being made for an additional full-size deck tennis court.

The Lido deck extends to the stern of the ship. Southern cruises during the summer. To provide additional comfort during the months the Empress of Australia's passengers will spend in tropical temperatures, additional ventilation is being provided for the Lido deck.

The Empress of Australia's West Indies cruise departure from New York will be January 12th, February 21st, March 21st, and April 9th, for cruises of 18 days, 13 days, and 11 days.

Photographs show a merry tea party, a before-dinner gathering on the new shelter deck, and a game of checkers.

CHAMPION  
GROCETERIA

Happy New Year

That a Brighter Year is in store for all is our sincere wish to our friends and customers.

A DOLLAR'S WORTH

Clip this coupon and mail it with \$1 for a six weeks' trial subscription to

THE CHRISTIAN SCIENCE MONITOR

Published by The Christian Science Monitor, Boston, Massachusetts, U. S. A.

Is it not well that the dear good news of the world from its 120 special writers, in fact of distinguished names in literature, science, religion, history, travel, and sports, should be made available to all? And don't you think, too, that the use of the Monitor will be a great help to you?

THE CHRISTIAN SCIENCE MONITOR, 1000 Boylston Street, Boston, Mass.

Please send me a six weeks' trial subscription, a money order or cash.

Happy New Year

As we enter into another year the thought sinks deeper into our minds that friendships become closer. So with all sincerity we trust this year will bring happiness to all.
